

ALBERTA BEEKEEPERS COMMISSION  
**TECHTRANSFER**  
PROGRAM

# MONTHLY UPDATE

February 2026

## UNIVERSITY OF ALBERTA - JOB FAIR

The TTP had a booth at the UofA spring job fair and it was a success!

We had the chance to talk to possible candidates about the TTP/ABC role in the beekeeping industry and received interesting applications. Good luck candidates!

## BEE TECH 2026

We volunteered at Bee Tech 2026 in Calgary, where we had the opportunity to connect with various tech teams from across Canada and learn more about their programs. We also gained deeper insight into *Tropilaelaps*, explored new technologies in the industry, and networked with researchers and vendors from around the world.

## HIVE-SIDE CHAT

Thank you to Dr. Alvaro de la Mora for a great Hive-Side Chat and for sharing his talk, "*Benefits of Breeding Bees for Low Varroa Population Growth*". We also appreciate everyone who joined, participated, and asked questions.

The recording of the talk will be available soon on our YouTube channel. Stay tuned!
